

WE ARE
CAPABLE
TO CATER YOUR
DEMANDS

OF HIGH-QUALITY FASTENERS
AS PER REQUIREMENTS

Manufacturers & Suppliers of
All Type of Bolts & Screws, Nuts, Washers,
Threaded Rods, Studs, Etc.

A Worldwide
Destination of
Superior-quality
FASTENERS

HISTORY

BI was founded in the city of Ludhiana, Punjab in the year of 2015. A company driven by innovation and eminent quality. BI has inherited strong business ethics from its parent companies, Laj Exports and Shine International which have more than 25 years of experience in manufacturing and exporting bicycle components to East African countries.

VISION

Our vision is to build a future full of fulfilled dreams. We aim to grab every opportunity to improve the quality of our products and exceed customer satisfaction.

MISSION

BI aims to strengthen the future of the metal industry and is continuously working towards building a better world. We aspire to attain par excellence in our business with the true spirit of entrepreneurship, precise standards of work, optimum usage of resources and developing the best practices and people. We aim at creating a positive impact in the world of businesses.

ETHICS

Along with inclining our business, we also value our customers and employees' trust and reliance in us. Therefore, our work and services are coupled with a proper ethical conduct. We abide by both the National and International laws that are applicable to our sector of work.

TO STAND HIGH, BE DIFFERENT

We are the largest manufacturer & exporter of fasteners from India

WELCOME TO BHAVYA INDUSTRIES

Bhavya Industries is regarded as a powerhouse of manufacturing and trading. We have a dominant presence in the production of fasteners, fixings and channel accessories. We have established advanced and futuristic standards in the areas of manufacturing, trading and exporting. Manufacturing is not just a process of turning the raw into meaningful but a process that brings change in the dynamics of the industrial world.

The company has scripted an enviable success story, transforming the lives of thousands of masses. With enriching services in manufacturing and edified capabilities of exports, we have managed to develop a highly satisfied client base. We are a recognized destination of fastener manufacturing, trading and exporting.

BI offers its high standard services in India and East Africa. Strolling forth, the company established a prominent office in the UK named as **"Fortis Valere"** which is a trading company. We extend our assistance in multifarious sectors of the industrial world such as manufacturing, automotive, production, machinery, gym equipment, construction and agriculture. We have been leaving a great customer satisfaction graph in every aspect of our services.

To achieve the above position Bhavya Industries has equipped its unit with well adverse and latest state of art machinery, and professionals to obtain maximum quality output/ production and simultaneously is followed with very constant research and development by technicians.

Other than, ISO, DIN, ASTM, ANSI We have the capacity to manufacture customized fasteners in accordance to customer drawings & specifications.

Our quality control is at the best wherein each & every piece undergoes stringent quality control before being dispatched procedure Clients ultimate satisfaction is our motto and in true sense we believe in delivering quality products with prompt action at all times.

To keep you informed following are our credentials.

- An ISO 9001:2015 Certified Company

QUALITY POLICY

AN ISO 9001:2015 Certified Company

We work on a “No compromise with quality” basis and this has always been our first and foremost priority to ensure that high quality standards are maintained throughout the unit. We have extensive experience when it comes to maintaining quality assurance and quality control in our company. We completely abide by the PDCA- Plan Do Check Act and hold an authentic certification from ISO 9001:2015.

Our sophisticated manufacturing techniques and quality yield world class quality products that are not only efficient but flawless too. We hold inspection of the resources and raw materials used in different processes at regular intervals. In addition to this, our products undergo a material hardness test series in order to get refined to the best of their forms.

Talking about the raw material, we garner it from recognised and well-known steel industries that edify the process of manufacturing at our company in every minute way. Our company stands at its best when it comes to following all the applicable National and International standards of industry. We have never failed to maintain our long-standing reputation as a leading manufacturer.

- Quality Assurance
- World Class Quality Products
- Quality Control
- Material Hardness Testing
- PDCA - Plan Do Check Act
- Inspection of Raw Materials
- Raw materials: all our raw material is bought from well known steel industries
- Full compliance with all applicable national and international standards

INFRASTRUCTURE

In house manufacturing facilities

A company's infrastructure plays a significant role in establishing a proliferative connection between the industry and its customers. We aim at ensuring efficiency and sustainability in our units.

BI establishes stringent quality control throughout the manufacturing process by carrying out activities such as selection of raw material, forming, machining and finishing to ensure the highest quality standards for our products. We have constructed a well-maintained safe working environment for our workers in order to capture the best of their energies in making and refining our top-notch products.

Not only this, we are purely committed towards the safety of our employees, customers and industry on an overall basis. Our manufacturing units are well constructed and equipped with the most effective and sufficient technology. We have a wide range of machines imported from Taiwan and China ensuring the yield of prominent quality products for our customers.

NUTS

Diameters:

Grades / Raw Material:

4, 6, 8, 10, 12

or as per customer requirement

Threads:

MM, BSW, BSF, UNC, UNF, UN, NC

Our Manufacturing Range

Nuts As Per

DIN 934

DIN 929

DIN 928

DIN 6923

DIN 6926

DIN 557

DIN 980V

DIN 985

DIN 982

or as per customer requirements

We ENSURE all
our products are of
**WORLD CLASS
STANDARDS**

Hex Nuts

Weld Nuts

Dome / Cap Nuts

Flange Nuts

Flange Nylock Nuts

Square Nuts

Torque Nuts

Nylock Nuts

Lock Nuts

Coupler / Long Nuts

Castle Nuts

2H Heavy Hex Nuts

Finishes:

Hot Dip Galvanised, Zinc Flake Coating,
Zinc Plating, Auto Black, Etc.

BOLTS & SCREWS

Our Manufacturing Range

Diameters:

M5 to M24 & 3/16" to 1"

Length:

20mm to 150mm & 3/4" to 6"

Threads:

MM, BSW, BSF, UNC, UNF, UN, NC

Grades / Raw Material:

4.6, 4.8, 5.6, 5.8, 8.8, 10.9, 12.9,
or as per customer requirement

Bolts As Per

DIN 603

DIN 931

DIN 933

DIN 912

DIN 6921

or as per customer requirements

25+ YEARS

OF EXPERIENCE IN

Manufacturing & Export
